Concentrated Degreaser

Replace all your conventional cleaning agents with DriveUp. The powerful concentrated degreasing agent is non-toxic and biodegradable, ensuring a safe but effective cleaning solution.

The non-corrosive cleaner can be used on any surface without risk of abrasion, and without cumbersome personal protection equipment. Removes grease and grime with ease!

DriveUp Super Cleaner is an amazing technological breakthrough that removes motor oil, grease and grime from a variety of surfaces without scrubbing.

Garage

Effortlessly remove oil stains, grease and mold from work surfaces, parking lots, gas pumps and more. Use DriveUp on asphalt, concrete, wooden decks, tiles and stone. DriveUp Super Cleaner has the ability to DRIVE UP an oil stain, not only from the surface of concrete, but also from beneath the surface, so that your stain does not reappear after a few days. It is effective on both concrete and asphalt. No need to scrub or use a destructive high-pressure hose.

Workshop

Soak tools and equipment in DriveUp for safe and non-abrasive cleaning. Simply rinse and use as needed - no scrubbing required!

Oil Separation Units

DriveUp is designed and tested for exact equipment specifications, so it works more efficiently in your oil separation systems. No more clogging up and manually clearing your oil separation systems because your degreaser is not working.

Soaking engine blocks

Non-abrasive formula ensures sensitive materials remain unharmed, while ensuring a grease-free clean.

Cleaning auto parts

Safe to use on chrome, underbody, metals. No scrubbing - just apply and wipe or rinse.

Rubber

Safely remove oil and grime from tires and rubber floor mats.

Boats

Safe for cleaning residue and mold from boats and boating equipment.
